

Tanah Mympi Housekeeping — Staff User Guide

A simple, step-by-step guide to using the housekeeping app on your phone or tablet. No app to install — you just open a web link.

Last updated: 2026-06-29. The shareable copy is `HOUSEKEEPING_USER_GUIDE.pdf`.

What the app is for

You use the app to **sign off rooms after you clean them**, and to **flag anything that needs attention** (maintenance, damage, missing items). Your manager can see everything you submit.

App link: <https://pjcoxy.github.io/tanah-mympi-staff/> (*Tip: open it once, then add it to your home screen so it's one tap next time.*)

Before you start

- You need your **name** and **4-digit PIN** (ask your manager if you don't have one).
 - You need an **internet connection** to log in and submit.
-

1. Log in

TANAH MYMPI
HOUSEKEEPING

STAFF NAME

Select your name... ▼

PIN

• • • •

Sign In

1. Open the app link.
2. **Choose your name** from the list.
3. **Enter your PIN.**
4. Tap **Sign in**.

If it says "*Incorrect PIN*", check you picked the right name and try again. Still stuck? See your manager.

2. ⚠️ Check it says YOUR name

 Logged in as PETE C

Not you? Sign out

STEP 1: SELECT ROOM *

103

STEP 2: SERVICE TYPE *

Full Clean (checkout)

PROGRESS

0% (21 left)

Step 3: Complete All Tasks

BEDROOM

0

- ☐ Beds made / linen changed
- ☐ Pillows fluffed & arranged
- ☐ Floors vacuumed / swept
- ☐ Surfaces dusted & wiped
- ☐ Bins emptied & relined
- ☐ A/C set to 23°C & working

BATHROOM

0

- ☐ Toilet cleaned & sanitised
- ☐ Shower / bath scrubbed
- ☐ Vanity & basin wiped

☐ Mirrors polished
☐ Fresh towels set out

After you log in, a **gold bar at the top shows who is logged in** — for example **"Logged in as PETE C"**.

Always check this is your name before you start, especially on a shared phone or tablet. If it's someone else's name, tap **"Not you? Sign out"** and log in as yourself. This makes sure rooms are recorded under the right person.

3. Sign off a room

Work through the steps on the screen — they appear one at a time:

1. **Select the room** you cleaned.
2. **Choose the service type** (Full Clean, Refresh, Turndown, or Inspection). The checklist changes to match — you'll only see the items that apply.
3. **Tick each item** as you confirm it's done.
4. **Flag any issues** if needed (see next section).
5. Tap **Submit**.

You'll see a confirmation when it's saved.

4. Flagging an issue

If something needs follow-up, tick the matching flag:

-  **Maintenance** — something needs fixing
-  **Damage** — something is broken or damaged
-  **Missing item** — something should be there but isn't
-  **Other** — anything else worth noting

If you flag an issue you must add a short note describing it (e.g. "shower tap dripping"), then submit.

5. Made a mistake? Recall it

Right after you submit, there's a short window where you can **Recall** the last sign-off to fix it. Use this if you picked the wrong room or service type. After the window closes, ask your manager to correct it.

6. If you're offline

If your device loses internet, you'll see a warning and **you won't be able to submit**. Move to where you have a signal and try again. Don't worry — you won't lose your ticks while you wait.

7. Signing out

- Tap **Sign out** when you're done, especially on a shared device.
 - For your security, the app **logs you out automatically after 20 minutes** of no activity.
-

Common questions

Question	Answer
I forgot my PIN	Ask your manager — they can look it up or reset it.
It won't let me submit	Check your internet connection; you must be online to submit.
The top bar shows the wrong name	Tap "Not you? Sign out" and log in as yourself.
I submitted the wrong room	Use Recall straight away, or tell your manager.
Do I need to install anything?	No — it's just a web link. Add it to your home screen for quick access.

For managers — viewing the stats

Open the **dashboard** to see charts of activity: <https://pjcoxy.github.io/tanah-mympi-staff/dashboard.html>

It shows rooms cleaned per week (with a trend line), totals per staff member, the mix of service types, issues flagged, the busiest days, and the busiest rooms. It updates automatically from what staff submit — just refresh the page.
